Re: Novak Sanitary Landfill Site  
Lehigh County, Pennsylvania  
PRP Information

Dear Mr. Phillips:

As requested, I have enclosed copies of documents pertaining to The Standard Pump Division of Ingersoll Rand Company, E. Schneider & Sons and the Novak Sanitary Landfill. In general, it appears that Ingersoll Rand Company contracted with E. Schneider & Sons to haul away plant wastes. E. Schneider & Sons disposed of plant wastes at the Novak Sanitary Landfill. I apologize for the disorder of the documents; they are in chronological order, but not paired from landfill to hauler to generator. Please contact me if you have any questions at (215) 597-3166.

Sincerely

*Michael Towle*
